Duecentotré 5
DOCCIA
203-5 SHOWER CHAIR

Duecentotre 5 **DOCCIA**

203-5 SHOWER CHAIR

Safety in daily hygiene.

Duecentotre5 Doccia by Ormesa is a **shower chair for adults**. It is safe and comfortable, designed to let the user be in his semi-lying or sitting position while taking a shower

The **bathroom** is the environment where most **domestic accidents** or **accidental falls** occur: washing a person with motor problems can be uncomfortable and dangerous for both the user and the caregiver. The shower chair **Duecentotre5 Doccia** meets the needs of **safety** and **practicality** of both, ensuring **stability** and **hygiene**.

The **wrapping backrest** has a **"V" shape** for a better containment of the trunk; its structure – together with the **tilted seat** – prevents the user to slide forward and favors the **unloading of the trunk on several points**, excluding the spine from rubbing and compression.

PRODUCT
MARKED **CE**

203-5 SHOWER CHAIR is a MEDICAL DEVICE COMPLIES WITH THE SAFETY REQUIREMENTS defined with the REGULATION (EU) 2017/745

Widespread well-being

Technology for better living

Duecentotre-5 Shower chair has an aluminium frame with a non-toxic epoxy varnish finish.

Its **covering** is made of a special fire-proof, visco-elastic, hygienic, washable and highly wear-resistant **material**. It adapts to the shape of the user's shoulders and glutes and it guarantees a **wide breathability**, as well as an effective water reflux.

The **wrapping backrest** has a **"V" shape** for a better containment of the trunk and it can be fixed in two positions in order to have different depth adjustment of the seat, thanks to the back rack locking.

The **ergonomic seat** has a 15° tilt in order to prevent the User from slipping forward

The **reclining backrest and legrest** allow the caregiver to place the user semi-reclined or seated, keeping the **lateral containment of the trunk-pelvis** constant.
