TECHNICAL UPDATES

Ormesa Bug Update	8
Belts and Harnesses	9

NEW! PELVIC BELTS

PELVIC STABILISER BELT

RMS are excited to bring this four point pelvic stabiliser belt to the market, further diversifying our extensive range of high quality belts and harnesses. This belt will be available for purchase from the **1st September** so contact our customer service team for details on the product and pricing.

NON-SLIP LOCKING PELVIC BELT

This small pelvic belt uses a locking cam to give you the power to lock the belt webbing in a secure position. This single pull belt is perfect to stop the belt from slipping.

NEW! CORZINO XCOUNTRY BUGGY

RMS have been exclusive distributors of the Patron line of buggies in the UK for many years. Now we are pleased to introduce for 2023 the new Corzino XCountry buggy with modern new upholstery designs.

- > Comfort padded ergonomic seat design
- > Height and angle adjustable footrest
- > Angle adjustable backrest with 2 positions
- > Adjustable seat depth for growth
- > Includes 5-pt buggy harness and crotch belt
- > Includes EU and UK approved transport hooks
- > Includes padded side covers and calf panel

On top of all the fantastic postural benefits listed above, these buggies will be held in stock with an extremely quick **5 DAY LEAD TIME** for the grey upholstery colour.

You can find out more about this new exclusive buggy by calling us on **01795 477280** or visiting our interactive website at **www.rms-rehab.co.uk**.

ORMESA BUG

BUGGY SEATING INTERFACE

The **Ormesa Bug** has been updated on its interface with the back of the seat now having a small steel plate with a “**push to unlock**” button. With this new feature, users and caregivers / family members will feel **even more secure** because they will ensure seating is positively locked the into place.

REAR SIBLING FOOTBOARD

The rear sibling footboard for the Ormesa Bug has now been **discontinued**. However, this buggy still has wide range of great parts and accessories to go with it. Head to our website to find out more.

BELTS & HARNESSSES

UPDATES TO SHOULDER HARNESS

We have updated our **H006**, **H007** and **H008** Shoulder Harness so that the buckle in the middle that connects the two sides now has our locking cam buckle, stopping the webbing from working loose over time.

HEAVY DUTY BELT RANGE

To guarantee supply chains while metal buckles were hard to procure during the COVID-19 pandemic, we introduced our heavy duty plastic belt range. Now supply has returned to normal, we will be discontinuing this range of products. You can see our full pelvic belt offering at www.rms-rehab.co.uk/accessories.

SOLOC BUCKLE BELT RANGE

Due the decreasing demand, the Soloc Magnetic Buckle belt range and our Heavy Duty Plastic Buckle belts have now been discontinued. You can see our full pelvic belt offering at www.rms-rehab.co.uk/accessories.
